Rohan Singh

Frontend Developer(React)

Professional Summary

Dedicated and innovative Frontend Developer with proven expertise in React.js and JavaScript, excelling in translating design concepts into engaging user interfaces. Skilled in optimizing web applications for performance and scalability, while ensuring responsive design and cross-browser compatibility. Adaptive in leveraging Generative AI and quickly mastering new technologies.

Projects

Daily-Objects [Live Demo Link](#) [Github Repo Link](#)

JavaScript

RESTful APIs

HTML5

CSS3

Responsive Web Design

- Developed a web application that serves as a clone of dailyobjects.com, using JavaScript and RESTful APIs.
- Collaborated in a team to create an interactive shopping platform with emphasis on responsive web design using HTML5 and CSS3.
- Contributed significantly to implementing the product page, ensuring a seamless user experience across devices.
- Worked with backend developers to integrate the frontend components with server-side APIs.

Tailwind

HTML5

CSS3

Bootstrap

- Led a team to develop a cosmetics e-commerce website with a focus on the landing page using Tailwind, HTML5, CSS3, and Bootstrap.
- Used Figma to design and create a clone of Vitatours.com, utilizing Bootstrap and Sass for the landing page.
- Managed code conflicts and ensured smooth integration of team members' contributions, enhancing UI components as needed.
- Gained experience in handling collaborative workflows effectively, especially in merging and adjusting code from various collaborators.
